

Coasters Kemp Club

Lowdown

June 2004

Welcome to summer everyone!!!! I write this introduction to everyone from Rachel and my new house in Newmarket.... We moved in at the beginning of March. I didn't know how many toy's and car parts I really had until I moved it all!!!! I have collections of parts to follow every car I own, and even some I don't. Sunday mornings are now spent instead of entirely engrossed on speed channel to the odd flip over to "Trading Spaces". "I love what they did with the colour....". Hey I'm not wearing a dress around the house.... at least not yet.... With all the focus directed at the house the cars are a little late coming out.... But they should see the road very soon.... Aaron Robert's T-bird looks like a different car.... (sorry Mel no offence... Ok) Aaron you really cleaned up the lines, the car looks really classy.... Brandon's car is shiny.... I haven't laid eyes on it yet but I hear you have to wear shades, and a fire suit (the flame job blows you away I hear) My '50 Ford is being re-clipped up at Horne's place.... a couple of more weeks and he will be done and then off to get it sand blasted....

For those that missed spring Barrie it was a scorcher.... sales at our booth were brisk, the weather brought out all the gear heads, and it was a weekend celebration of every thing automotive.... a lot of familiar faces paced through the booth, if I missed you I'm sorry I could not let all the deals go to somebody else, and I had money to burn... Fall Barrie is only a summer away, isn't that sad to look at that way....

The web site looks to be a success, For those that are interested: www.royalautoparts.ca/coasters is the address. The graphics are killer thanks to Rachel, and Brandon's work is spread out all over the site. Dan Bartly is hard at work on a song for the club, and the web site.... any ideas pass them along.... we could get an entire album out of this thing.... If you haven't heard Dan and the Royal Crowns.... we are working to get them to give us a taste at "Lead North".

This leads us into discussing "Lead North", our largest club car show/flea market/party/get together... on the long weekend in Sept. Darcy, Dave Horne, and I had a chat at Stirling about the direction for next year.... it was a short chat.... because the formula for success speaks for itself... look at last years show!!!! Old Auto's already has the ad running.... and flyers are slowly being sent out to all club members : please photo copy it and send it along to one and all.... it is great to drop into window's at your local cruise. hint hint....

Got a concern, question? like, dislike, trouble?, or contribution get a hold of me any time....

Keep your window rolled down and the tunes a blaring.....
